

# RICE REPORT #4

Name: Aryan Raval

**Participants:** Aryan Raval, Austin Xiong, and Claire Callon

**Setting:** We met online through Zoom at 7:00 p.m. on Sunday, March 05.

**Contributions:**

Aryan Raval (myself): I talked about an academic article I studied about artificial intelligence getting biased towards certain kinds of pets (say cats) and it was really because of biased data that was fed into the machine learning model that caused the whole system act biased.

Austin Xiong: They discussed an academic article on how an artificial intelligence model can be discriminatory by generating cartoons and animation such As the Simpsons and Seinfeld.

Claire Callon: They discussed an academic article regarding an artificial intelligence model that did not take into account environmental issues caused by its deployment, such as some agricultural issues.

We collectively talked about the assignment and how we are going to tackle it.
